Give substance of the following passage :

6

Man is the maker of his fortune. We cannot prosper in life if we are afraid of labour. People generally think that success in life depends on luck. This is not true. Men of science have toiled day and night to invent radio, television, telephone which have added to joy of our life. Life is not a bed of roses. Life will be miserable if we shrink from labour and fail to earn money enough to meet our daily expenses. Industry is the secret of success not only for an individual but also for a nation. China and America are the most powerful nations of the world today. They have attained such power and position by virtue of the earnest labour of their people. We Indians too, must work hard if we want to raise the prestige of our country in the eye of the world.

  - A festive atmosphere in the school.
  - The Education Minister was the Chief-guest.
  - The gave away the prizes and gave an encouraging speech.

31. (a) Read the following passage and answer the questions that follow :

Three-fourth of the Earth is covered by the sea which both separates and unites the various races of mankind. The sea is the great highway along which man may travel at his will, the great road that has no walls or hedges hemming it in. Nobody needs to keep it in good repair with the help of pickaxe and barrels of tar and steamrollers. The sea appeals to man's love of the perilous and the unknown, to his love of conquest, his love of knowledge and his love of gold. Its blue waters call to him and bid him fare forth in quest of fresh fields. Beyond their horizon he has found danger and death, glory and gain.

- How much of our planet is not covered by the sea ? 1
- How does the sea help man ? 2
- In what way does the sea appeal to man ? 2

- (b) Read the following passage carefully and answer the questions that follow :

(The river, Kaveri, obtains its water from the hills and forests of Coorg.)  
 Mahaseer - a large freshwater fish - abound in these waters. Kingfishers dive for their catch while squirrels and langurs drop partially eaten fruit for the mischief of enjoying the splash and ripple effect in the clear water. Elephants enjoy being bathed and scrubbed in the river by their mahouts.

The most laid-back individuals become converts to the life of high energy adventure with river rafting, canoeing, rapelling, rock-climbing and mountain biking. Numerous walking trails in this region are a favourite with trekkers.

- (i) From where does the river Kaveri obtain its water ? 1  
 (ii) How do the various birds and beasts enjoy in the stream of Kaveri ? 2  
 (iii) Name the various sports favourite with the visitors to this place. 2
